

Position: **Electrical Assembly Technician**

Reliant Systems, Inc. is a vertically integrated designer and manufacturer of high precision linear and rotary positioning stages. We specialize in custom, easy to integrate OEM motion assemblies that have been designed for a customer's specific application. Our positioning stages are found in metrology, inspection, and production tools used in the semiconductor, data recording, medical device, and laser machining industries.

Job Description

As an Electrical Assembly Technician, you will build and test cable assemblies that are used in our high precision linear and rotary positioning stages. You will build the assemblies using schematics and build processes and then test them using cable testers and multimeters. You will also work closely with the engineering team providing feedback for continued product design improvement. Successful candidate must be able to follow assembly instructions, standard operating and quality assurance procedures, and be able to read and understand engineering drawings. You must be a self-starter and be able to work in a team setting.

Basic Qualifications

- Associates Degree in related discipline strongly preferred.
- 2+ years of experience as an electrical technician working with crimping tools, measuring tools, microscopes, manufacturing and evaluation equipment, as well as small components and electrical devices.

Additional Qualifications

- Ability to work with and read precision hand tools. Examples include: digital or dial calipers, digital or dial micrometers, tape measures, and wire cutting tools.
- Excellent mechanical aptitude.
- Speak, read and write English fluently and possess skills normally associated with a two-year electrical technician degree.
- Experience using set-up documents and operation procedures for manufacturing specifications.
- 1+ years of experience with MS office including Word and Excel.
- Proven ability to multi-task and work independently.
- Flexibility to work overtime as business needs dictate.
- Demonstrate good leadership skills with experience in teamwork and team building.

Benefits: Healthcare, Dental, 401k with up to 4% company match, Paid Holidays & PTO
